

A large, dark blue banner with the text 'Industrial Cybersecurity Solutions' in white, bold, sans-serif font. The background of the banner shows a complex industrial facility with various pipes, tanks, and structures, overlaid with a network of glowing blue lines and nodes, suggesting a digital or cyber environment.

Armexa is a leading provider of advanced industrial cybersecurity solutions that protect your critical operational technology (OT) and industrial controls systems (ICS) against evolving threats. As your trusted partner, we bring innovation, precision, and technical expertise to your security projects.

Business-driven cybersecurity solutions

Armexa delivers the security capabilities you need for confidence in your security posture. Whether you're using traditional infrastructure or moving to cloud and IoT, we work with you to design and implement a comprehensive cybersecurity strategy tailored to your organization's mission and objectives. We develop frameworks, roadmaps, and recommendations that apply governance, visibility, and proactive architectures for mitigating cyber exposure. We then implement your uniquely designed program to safeguard your critical industrial assets, improve operational efficiency, and position your organization for sustainable success.

Cybersecurity engineering solutions

- Security consulting & implementation
- Network architecture design & review
- Infrastructure configuration & deployment
- Asset discovery & monitoring
- Anomaly detection implementation
- Remote access & network segmentation
- Identity & access management
- Cloud & IoT integration

Assessments, threat analysis, and planning

- Architecture assessment
- Vulnerability assessment
- Gap & readiness assessment
- Tabletop exercises
- Contingency & response planning
- Compliance analysis

Tailored cybersecurity solutions for your industry

- Oil & gas
- Chemicals
- Power
- Public utilities
- Manufacturing
- Automotive
- Building automation
- Healthcare
